

# JAWS OF A SHARK GRIP OF A GATOR

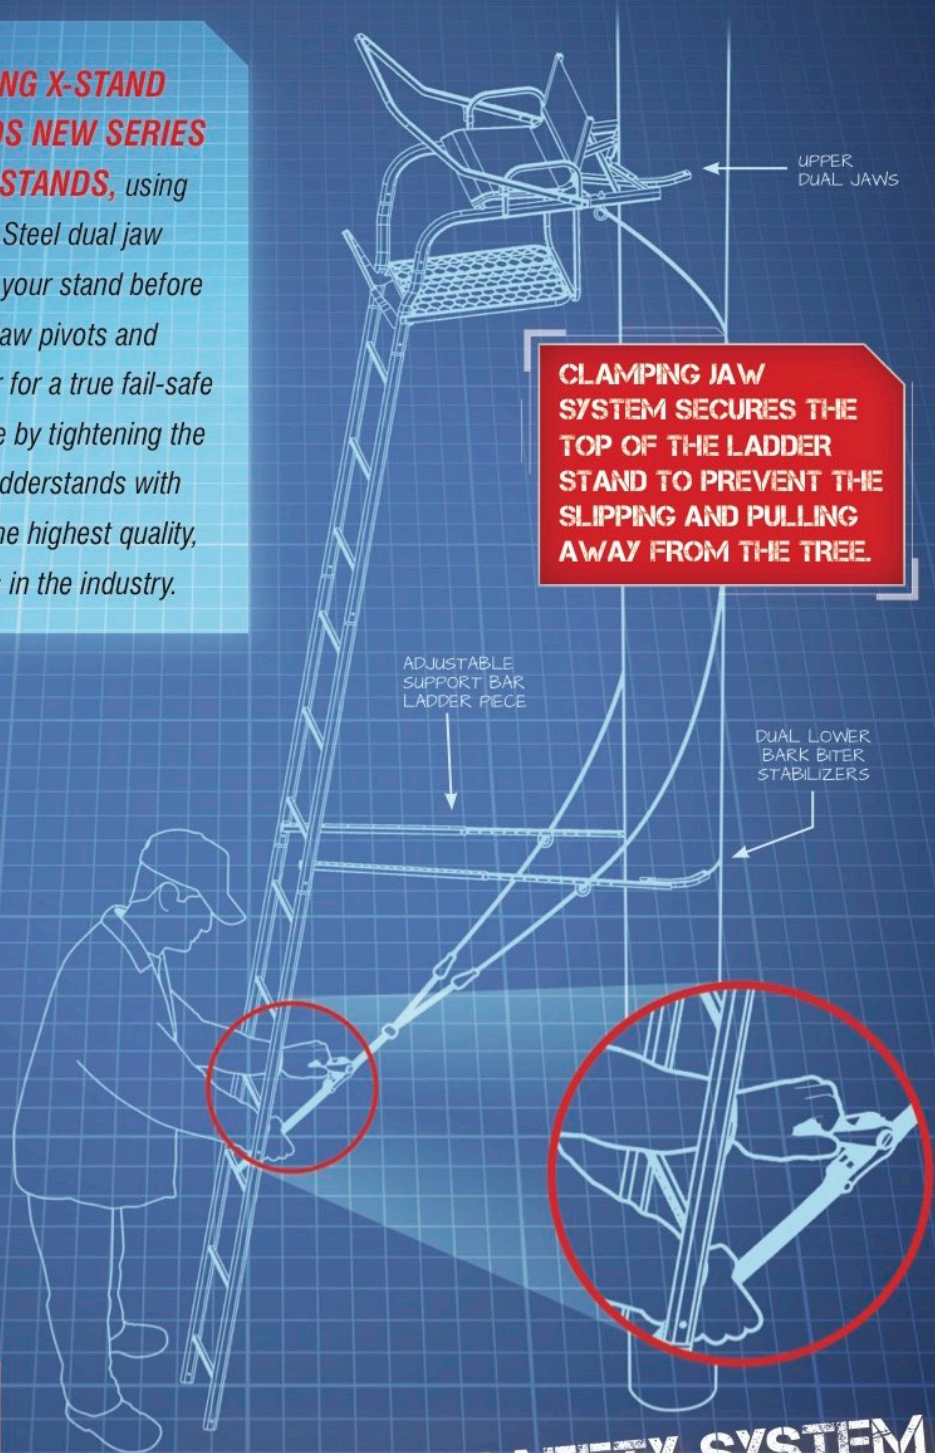

## INTRODUCING X-STAND TREESTANDS NEW SERIES OF LADDERSTANDS, using

revolutionary Jaw technology. The Steel dual jaw clamps around your tree securing your stand before you even leave the ground. Each Jaw pivots and works independently of each other for a true fail-safe design. The jaw locks onto the tree by tightening the system at ground level. X-Stand ladderstands with Jaw technology are hands down the highest quality, most stable and safe ladderstands in the industry.

CLIMB UP CONFIDENTLY  
KNOWING YOUR STAND  
IS MORE SECURE THAN  
ANY OTHER STAND IN  
THE INDUSTRY.

CLAMPING JAW SYSTEM SECURES THE TOP OF THE LADDER STAND TO PREVENT THE SLIPPING AND PULLING AWAY FROM THE TREE.

THE JAW SAFETY SYSTEM  
WILL SAVE LIVES!

YOUR STAND IS SAFE AND SECURE BEFORE YOU LEAVE THE GROUND.
